

AO Recon Course— Complex Total Hip and Knee Arthroplasty

October 28–29,
2022

Zagreb,
Croatia

Chairs: Dinko Vidović,
George Macheras

REGISTER NOW!

Course description

This course is modular in structure and highly interactive. Short, evidence-based lectures cover the key information required. Moderated case discussions in small groups will expand on each topic and help participants to develop decision-making and surgical management skills during small group discussions and hands-on practical exercises. Participants will have the opportunity to share their experience with peers and international faculty. All factors related to achieving the best possible outcomes in complex and revision arthroplasty will be covered.

Goal of the course

The AO Recon Course—Complex Total Hip and Knee Arthroplasty teaches current concepts in the treatment of patients with a need for revision or complex primary arthroplasty in the hip and knee.

Course fee

EUR 790

Learning objectives

At the end of this course, participants will be able to:

- Describe a systematic clinical, laboratory, and radiographic evaluation in revision and complex primary arthroplasty
- Optimize preoperative planning
- Adopt a patient-centred approach
- Optimize patients preoperatively to reduce complications
- Describe and discuss safe and effective procedures for revision and complex primary arthroplasty
- Discuss the management of early and late problems or complications
- Communicate and facilitate a multidisciplinary team-based approach
- Apply best practice to optimize and document patient outcome
